The Navy's program executive office for enterprise has gone through a lot of changes in the last year, and more are coming, according to Principal Deputy PEO Capt. Donald Harder.

The office has added four program offices in the last year: enterprise systems and services, sensitive compartmented information and controlled access program networks ashore, commercial cloud services and special access programs, Harder said during a panel presentation at the Armed Forces Communications and Electronics Association of Northern Virginia's Naval IT Day Oct. 1.

The biggest upcoming enterprise contract awards will be the recompetes for the Navy's Next Generation Enterprise Networks Re-compete and support services.

Harder said a final request for proposals for NGEN's service management integration and transport is expected to be finalized in the next two weeks. The RFP for end-user hardware hit the street in September.
